Techtextil 2022 to see the continuation of the 2019 open expert format with the Techtextil Forum. Proposals for presentations invited now.

In tune with the sector: On all four days of the coming Techtextil, the leading international trade fair for technical textiles and nonwovens (21 to 24 June 2022), the Techtextil Forum will be the multi-faceted setting for the exchange of ideas and information between exhibitors, visitors, researchers, developers and users of technical textiles with a host of lectures, discussions and interactive formats. Speakers interested in making a presentation at the Techtextil Forum are invited to submit their proposals by 16 February 2022.

“As in the past, the Techtextil Forum 2022 will be held in the exhibition hall itself, which will give both visitors and exhibitors the opportunity to listen to selected lectures or spontaneously contribute to discussions between appointments. The lectures will also be streamed and available on-demand. Thus, the exchange of ideas and information within the sector will not only enrich proceedings at the fair itself but also in the digital sphere after the doors have closed”, says Michael Jänecke, Director Brand Management Technical Textiles and Textile Processing, Messe Frankfurt.

The themes of Techtextil Forum 2022

The focus of the coming Techtextil Forum will be on new developments, trends and potential areas of application for technical textiles, nonwovens and functional apparel textiles, as well as technologies, manufacturing processes and new products. Proposals for presentations can be made in the following fields: health (textiles in the medical sector / hygiene), interior, personal protective equipment and protection of objects (PPE), building textiles, (new) trends, textiles for mobility/moving around and sport & leisure. Speakers are invited to propose lectures, workshops or topics for discussion. The proposals must be submitted in English via the internet at <https://techtextilforum2022.abstract-management.de>. The contributions will be selected by an international programme committee of experts.

Background information on Messe Frankfurt

The Messe Frankfurt Group is the world's largest trade fair, congress and event organiser with its own exhibition grounds. The Group employs approximately 2,300* people at its headquarters in Frankfurt am Main and in 30 subsidiaries around the world. In 2021, the company had to contend with the challenges posed by the pandemic for the second consecutive year. Annual sales will be approximately €140* million after having been as high as €736 million in 2019 before the pandemic. Even in difficult times caused by the coronavirus pandemic, we are globally networked with our industry sectors. We serve our customers' business interests efficiently within the framework of our Fairs & Events, Locations and Services business fields. One of the Group's key USPs is its closely knit global sales network, which extends throughout the world. Our comprehensive range of services – both onsite and online – ensures that customers worldwide enjoy consistently high quality and flexibility when planning, organising and running their events. We are expanding our digital expertise with new business models. The wide range of services includes renting exhibition grounds, trade fair construction and marketing, personnel and food services. With its headquarters in Frankfurt am Main, the company is owned by the City of Frankfurt (60 percent) and the State of Hesse (40 percent).
